

Accessories for the Cisco Unified Wireless IP Phone 7921G, 7925G, 7925G-EX, and 7926G Models

To enhance the user experience, Cisco and our third-party partners offer many accessories for the Cisco[®] Unified Wireless IP Phone 7921G, 7925G, 7925G-EX, and 7926G models. Table 1 lists these accessories with descriptions.

Table 1. Accessories for the Cisco Unified Wireless IP Phone 7921G, 7925G, 7925G-EX, and 7926G Models

Product	Description	
Cisco Unified Wireless IP Phone 7925G, 7925G-EX, and 7926G Desktop Charger	The desktop charger complements the Cisco Unified Wireless IP Phone 7925G, 7925G-EX, and 7926G models, providing a full-duplex speakerphone for hands-free communication and desktop charging. It provides connectivity to the phones through a Bluetooth interface, with audio control provided by the keys on the phone while it is located in the dock. In addition to charging the phone while in the dock, the desktop dock also charges a spare battery if fitted into the battery slot on the rear. This docking station contains an extra feature, "Booth mode", whereby a fully charged battery inserted in the rear battery slot can be used to operate the desktop charger and speakerphone when disconnected from wall power. This feature provides a quick and simple form of conference when moving to a small private room. The desktop charger uses a different power supply from the phone. Please note that the phone power supply is not required when using the desktop charger.	
Cisco Unified Wireless IP Phone 7925G, 7925G-EX, and 7926G Multi-Charger	The multi-charger is ideal for environments in which users have multiple shifts and must keep their Cisco Unified Wireless IP Phones charged throughout the day. The multi-charger can charge up to six phones and six phone batteries simultaneously. Its flexible design allows you to place the unit on a desk or mount it on a wall to save space. The multi-charger works for Cisco Unified Wireless IP Phone 7925G, 7925G-EX, and 7926G models.	
Leather case for Cisco Unified Wireless IP Phone 7925G and 7925G-EX models	The leather carrying case has a clear plastic window that allows you to view the screen, and it provides easy access to the keys and buttons. The carrying case has a removable belt clip on the back that rotates 360 degrees. This case comes with a security cord. The ring on one end of the cord slides onto the D-ring on the back of the carrying case. You can fasten the other end of the cord to a belt loop to secure the phone. You can remove the belt clip to use the leather carrying case with the shoulder strap.	
Holster case for Cisco Unified Wireless IP Phone 7925G and 7925G-EX models	The holster carrying case is a hard plastic case that holds the phone. The holster case has a clip on the back that rotates 180 degrees. You can use the clip to secure the phone to a belt or pocket.	
Ruggedized case for Cisco Unified Wireless IP Phone 7925G	The Cisco Unified Wireless IP Phone 7925G ruggedized case protects the phone. This protective case reduces damage if the phone is frequently dropped. Two clips that can attach to the back of the case are provided - a pocket clip for holding the phone in a pocket belt and a clip for holding the phone to a belt.	
Leather case for Cisco Unified Wireless IP Phone 7926G	The leather carrying case has a clear plastic window that allows you to view the screen; it provides easy access to the keys and buttons. The carrying case has a removable belt clip on the back that rotates 360 degrees. This case comes with a security cord. The ring on one end of the cord slides onto the D-ring on the back of the carrying case. You can fasten the other end of the cord to a belt loop to secure the phone. You can remove the belt clip to use the leather carrying case with the shoulder strap. This leather case also has an opening for the barcode scanner. Please note that the leather case for the 7926G is different from the one for the 7925G and 7925G-EX. These cases are not interchangeable.	

Product	Description	
Holster case for Cisco Unified Wireless IP Phone 7926G	The holster carrying case is a hard plastic case that holds the phone. The holster case has a clip on the back that rotates 180 degrees. You can use the clip to secure the phone to a belt or pocket. Please note that the holster case for the 7926G is different from the one for the 7925G and 7925G-EX. These cases are not interchangeable.	
Holster case for Cisco Unified Wireless IP Phone 7921G	The holster carrying case is a hard plastic case that holds the phone. The holster case has a clip on the back that rotates 180 degrees. You can use the clip to secure the phone to a belt or pocket.	
Lock set for Cisco Unified Wireless IP Phone 7921G, 7925G, 7925G-EX, and 7926G models	You can use the lock set to secure the phone to a desk or other furniture after hours and on weekends.	
Shoulder strap for leather case for Cisco Unified Wireless IP Phone 7921G, 7925G, 7925G-EX, and 7926G models	A shoulder strap is available for carrying your Cisco Unified Wireless IP Phone. After removing the belt clip from the back of the leather carrying case, you can slide the phone onto the holder. You can use a small clip on the bottom of the phone holder to secure the phone and strap to your clothing. A quick-release buckle makes it easy to remove the shoulder strap quickly.	
Wireless headsets for Cisco Unified Wireless IP Phone 7921G, 7925G, 7925G-EX, and 7926G models	The Cisco Unified Wireless IP Phones support Bluetooth 2.0. Sound is subjective, and Cisco cannot guarantee the performance of any headsets, but some of the headsets at the sites listed here have been reported to perform well on Cisco Unified Wireless IP Phones. It is your responsibility to test this equipment in your own environments to determine suitable performance. For information about wireless headsets, please visit: <ul style="list-style-type: none"> http://www.plantronics.com/cisco http://www.jabra.com http://www.jawbone.com http://www.vxicorp.com 	
Wired headsets for Cisco Unified Wireless IP Phone 7921G, 7925G, 7925G-EX, and 7926G models	The Cisco Unified Wireless IP Phones support tri-band four-conductor 2.5-mm-plug headsets and ear buds. The audio portion of a headset must sound good to the user and to the party on the far end. Sound is subjective, and Cisco cannot guarantee the performance of any headsets, but some of the headsets at the sites listed here have been reported to perform well on Cisco Unified Wireless IP Phones. It is your responsibility to test this equipment in your own environments to determine suitable performance.
