- Large backlit LCD display
- Easy-to-use User Interface
- 1 and 2-Line Models (6390 & 6392)
- Missed Call Indicator
- 6 programmable soft keys with up to 20 functions
- Hands-free speakerphone
- Headset support
- Message Waiting Indicator
- Programmable Feature Key delivering: Do Not Disturb, Call Forwarding, Voicemail
- Administrator features that facilitate installation
- Emergency calling features from line power

The Mitel 6390 series of analog phones deliver the latest advanced productivity-enhancing features, in addition to all of the traditional analog phone features. Designed to seamlessly connect to extensions of your business communication system or the PSTN.

The Mitel 6390 and 6392 analog phones are the ideal fit for any SMB or Enterprise business with a modern, sleek design that reflects today's office environment. Both models are true business grade quality phones built to last with a professional User Interface and feature set.

Program up to 20 memory keys, each with an on screen customizable label, with frequently called numbers or feature codes.

In addition to callers and redial lists both models offer advanced features such as DND, CFD, restricted dialing codes, outside line access code and masked security codes.

Available in two models – both models feature a similar user interface, feature set, and configuration process. The Mitel 6392 offers 2 Line support together with 3-way conferencing and the ability to customize call logs and primary line configuration.
