Mobile telephony comfort

Aastra 142d

Aastra 142d is the perfect DECT phone for Aastra platforms. This feature rich handset is a powerful tool for business communications on the go.

It has a variety of convenient features such as hands-free operation, vibra-call, back-lit graphic display and caller lists. Call filter, alarm function and the display of time and date complete the features.

Aastra 142d

Highlights of the Aastra 142d

- Illuminated display for simple, intuitive operation using the system menus and browsing through the phone book
- Easy administration due to integrated memory card
  - stores the device identification for the system
  - The local phone book and all the user's personal settings are easily transferred to the new phone whenever the user changes phones. It also means that a replacement device can be used immediately without having to re-register.
- Hands-free operation and headset socket permit flexible communication
- Additional accessories available:
  - international AC adapter
  - Charger Rack
  - Data cable (USB)
  - Headsets
