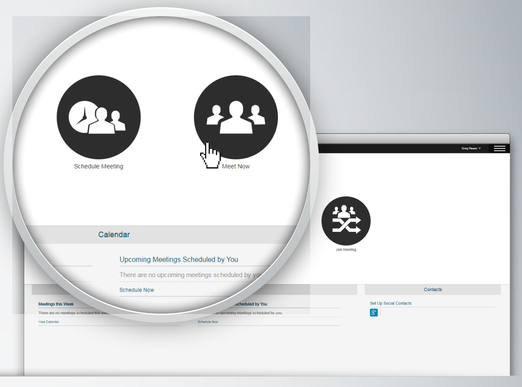
Four ways Polycom® RealPresence® Web Suite is redefining collaboration.

With Polycom RealPresence Web Suite, you now have the four things every company needs to bring the power of web collaboration to anyone, anywhere with the simplicity of a web browser – easily and naturally. Feature rich content sharing, enterprise-grade voice and video, and an exceptional experience help bring new ideas to life while integrating with everyday workflows.

1 Simple, click-to-connect convenience.

You can invite anyone—inside or outside your organization—to attend a face-to-face virtual meeting by simply sending a web link in an email, IM or calendar invite.



2 Universal access available to everyone.

You can host (or join) impromptu or scheduled video conferences and collaborate with anyone who has access to a browser and a web camera, a tablet or a smartphone.

3 Browser-based content sharing.

Anyone can share multiple documents simultaneously with annotation–from a browser–making collaboration more interactive and productive in an enterprise-grade meeting experience

4 A secure, easy to access place for all your people to meet.

All your connections from inside or outside your organization can securely and easily participate in any Polycom-powered collaboration meeting.

SIMPLE TO USE. AVAILABLE TO EVERYONE.
